Thursday, August 20. 1713.

London, August 20.

Yesterday arrived a Mail from Dunkirk.

From the Paris Gazette, dated Aug. 26.

Madrid, August 7.

**T**HE King has conferred the Employment of Counsellor of the Council of the Indies on Don Gonzalo Machado, in Recompence of his Services performed in the Kingdom of Naples, particularly during the Siege of Gaeta when he accompanied the Duke d'Escalona, and of his Sufferings in a vigorous Imprisonment five Years. The last Letters from Catalonia relate, that the Duke de Popoli had continued his March with the Army, without any Opposition from the People; that on the contrary the Towns and Villages on all Sides had sent Deputies to assure him of their Obedience and Fidelity, among others the Town and Castle of Berga on the Llobregat. The Deputies of the last mentioned Place reported, that the Inhabitants had killed Collonel Don Francisco Puig de Pierafita, who was there in Garrison, and who was one of the four chief Leaders of the Revolt of the Plain of Vich; and that there was in the Castle of Berga a great Quantity of Ammunition with Artillery. A Detachment which the Duke de Popoli had sent out to dislodge the Miquelets and Volunteers from some Passages and Defilez which they were possessed of, beat them and put them to flight. After which the King's Troops advancing within Cannon-Shot of Barcelona, they were fired at with Ball, which shewed that the Rebels were still Masters there. The 27th the Duke de Popoli was encamp'd at Hospiraletto, within a League of Barcelona. He had intirely block'd up the Town, and was making the necessary Dispositions for reducing it, in case the Rebels should persist in their Obsti-

nacy. It was block'd up on the Side towards the Sea by 6 Gallies of Spain, which first took a Bark of Majorca having on board 200 Gunners and Ammunition, and afterwards three other Vessels laden with Salt and Provisions for Barcelona. The Duke de Popoli had received by Sea a great Convoy of Meal and Corn. The Governour of Ostalric had desired the French Troops in the Lampourdan to approach that Place, to hinder the Rebels from getting into it by Intelligence; but had refused to let those French Troops enter, resolving to put the Place himself into the Hands of the Duke de Popoli, whose Orders he expected. The French Garrisons which were in the Citadel of Pampelona, and at Tarazona on the Frontier of Arragon, have delivered up those Places to the Spanish Troops, and are marched to France; and those of Puicerda and Belvert have taken the same Route, after having demolished the Fortifications made there. We have Advice, that Don Antonio de Villaroel whom the Rebels had chosen for their General, notwithstanding his Refusal, has found Means to escape and to retire to Collioure. They write from Cadiz, that the 16th of July died there a Carpenter aged 118 Years, who worked at his Trade to the last.

From the Paris Gazette, dated Aug. 26.

Hague, Aug. 17. The Plenipotentiaries of Spain have had several Conferences with the Deputies of the States General and with the Pensionary Heinsius, in which almost all Difficulties have been adjusted, and we are assured they will forthwith go back to Utrecht, to sign the Treaty of Peace between Spain and this State, and that nothing is staid for but the Return of Couriers to conclude the Peace between that Crown and Portugal.
